LEGISLATIVE COUNSEL'S DIGEST

SB 833, as amended, Committee on Budget and Fiscal Review.
~~Budget Act of 2016.~~ *Health.*

(1) Existing federal law, the federal Patient Protection and Affordable Care Act (PPACA), enacts various health care coverage market reforms that took effect January 1, 2014. Among other things, PPACA requires each state, by January 1, 2014, to establish an American Health Benefit Exchange that facilitates the purchase of qualified health plans by qualified individuals and qualified small employers. Existing state law establishes the California Health Benefit Exchange (the Exchange)

within state government for the purpose of facilitating the enrollment of qualified individuals and qualified small employers in qualified health plans, and specifies the powers and duties of the board governing the Exchange. Existing law authorizes the board of the Exchange to adopt any necessary regulations as emergency regulations until January 1, 2017. Existing law allows the emergency regulations adopted by the board to remain in effect for 3 years, as specified.

This bill would authorize the board to adopt any necessary regulations to implement the eligibility, enrollment, and appeals processes for the individual and small business exchanges, changes to the small business exchange, or any act in effect that amends the provisions governing the Exchange that is operative on or before December 31, 2016, as emergency regulations. The bill would instead allow the emergency regulations adopted by the board to remain in effect for 5 years, as specified.

(2) Existing law creates the State Department of Public Health and vests it with duties, powers, functions, jurisdiction, and responsibilities with regard to the advancement of public health.

This bill would require the department, subject to an appropriation for this purpose in the Budget Act of 2016, to award funding to local health departments, local government agencies, or on a competitive basis to community-based organizations, regional opioid prevention coalitions, or both, to support or establish programs that provide Naloxone to first responders and to at-risk opioid users through programs that serve at-risk drug users, including, but not limited to, syringe exchange and disposal programs, homeless programs, and substance use disorder treatment providers.

(3) Existing law establishes the Long-Term Care Quality Assurance Fund in the State Treasury and requires all revenues received by the State Department of Health Care Services categorized by the department as long-term care quality assurance fees, including specified fees on certain intermediate care facilities and skilled nursing facilities, as specified, to be deposited into the fund. Existing law requires the moneys in the fund to be available, upon appropriation by the Legislature, for expenditure by the department to provide supplemental Medi-Cal reimbursement for intermediate care facility services, as specified, and to enhance federal financial participation in the Medi-Cal program or to provide additional reimbursement to, and support facility quality improvement efforts in, licensed skilled nursing facilities.

This bill would continuously appropriate the moneys in the fund to the department, thereby making an appropriation.

(4) Existing law requires the State Public Health Officer, to the extent that state and federal funds are appropriated, to establish and administer a program to provide drug treatments to persons infected with human immunodeficiency virus (HIV). Existing law establishes the AIDS Drug Assistance Rebate Fund, which is continuously appropriated and contains specified rebates from drug manufacturers, and authorizes expenditures from the fund for purposes of this program.

This bill would require the State Public Health Officer, to the extent that state and federal funds are appropriated, to establish and administer a program to provide drug treatments to persons who are HIV-negative who have been prescribed preexposure prophylaxis included on the ADAP formulary for the prevention of HIV infection. The bill would authorize the State Public Health Officer, to the extent allowable under federal law and as appropriated in the annual Budget Act, to expend funding from the AIDS Drug Assistance Program Rebate Fund for this HIV infection prevention program to cover the costs of prescribed ADAP formulary medications for the prevention of HIV infection and other specified costs.

Existing law authorizes the State Department of Public Health to subsidize certain cost-sharing requirements for persons otherwise eligible for the AIDS Drug Assistance Program (ADAP) with existing non-ADAP drug coverage by paying for prescription drugs included on the ADAP formulary within the existing ADAP operational structure, as specified. Under existing law, if the State Public Health Officer determines that it would result in a cost savings to the state, the department is authorized to subsidize, using available federal funds and moneys from the AIDS Drug Assistance Program Rebate Fund, costs associated with a health care service plan or health insurance policy and premiums to purchase or maintain health insurance coverage.

The bill would delete the requirement that the State Public Health Officer determine that there would be a cost savings to the state before the department may subsidize the above-described costs with available federal funds and moneys from the AIDS Drug Assistance Program Rebate Fund.

Existing law requires the department to establish and administer a payment schedule to determine the payment obligation of a person receiving drugs under the program, as specified. Existing law limits the payment obligation to the lessor of 2 times the person's annual state

income tax liability, less health insurance premium payments, or the cost of the drugs.

This bill would delete the above-described payment obligation. The bill would also make conforming changes.

(5) Existing law establishes the State Department of Public Health for purposes of, among other things, providing or facilitating access to certain health services and programs. Existing law requires the department to administer certain programs related to hepatitis B and hepatitis C, as specified.

This bill would require the State Department of Public Health to, among other things, purchase and distribute certain hepatitis B and hepatitis C materials to local entities for purposes of testing and vaccination, as specified. The bill would further require the department to facilitate related training and other technical assistance relating to syringe exchanges. The bill would authorize the department to issue grants for these purposes. The bill would make these provisions subject to funding provided for these purposes.

(6) Existing law authorizes any postsecondary higher educational institution with a medical center to establish diagnostic and treatment centers for Alzheimer's disease, and requires the State Department of Public Health to administer grants to the postsecondary higher educational institutions that establish a center pursuant to these provisions.

This bill would require the department to allocate funds to those centers, from funds appropriated to the department in the Budget Act of 2016, to be used for specified purposes, including to conduct targeted outreach to health professionals and to provide low-cost, accessible detection and diagnosis tools, as specified.

(7) Existing law establishes the Office of Health Information Integrity, headed by the Director of the Office of Health Information Integrity, within the California Health and Human Services Agency and requires the office to assume statewide leadership, coordination, policy formulation, direction, and oversight responsibilities for implementation of the federal Health Insurance Portability and Accountability Act (HIPAA). Existing law requires the director to establish an advisory committee to obtain information on statewide HIPAA implementation activities, which is required to meet at a minimum 2 times per year. Existing law requires the Department of Finance to develop and annually publish prior to August 1 guidelines for state entities, as defined, to obtain additional HIPAA funding, and to report to the

Legislature quarterly on HIPAA allocations, redirections, and expenditures, categorized by state entity and by project.

This bill would revise those provisions to reflect the office's duties regarding ongoing compliance with HIPAA. The bill would delete the provisions pertaining to the advisory committee and the Department of Finance requirements to publish guidelines and report to the Legislature.

(8) Existing law establishes a workers' compensation system, administered by the Administrative Director of the Division of Workers' Compensation, to compensate an employee for injuries sustained in the course of his or her employment. Existing law prohibits a person or public or private entity who is not a party to a claim for workers' compensation benefits from obtaining individually identifiable information, as defined, that is obtained or maintained by the Division of Workers' Compensation of the Department of Industrial Relations on that claim, except as specified. Existing law authorizes, until January 1, 2017, the use by the State Department of Health Care Services of individually identifiable information to seek recovery of Medi-Cal costs.

This bill would delete that January 1, 2017, date of repeal and thereby extend the operation of this authority of the State Department of Health Care Services indefinitely.

(9) The California Health Facilities Financing Authority Act authorizes the California Health Facilities Financing Authority (authority) to make loans from the continuously appropriated California Health Facilities Financing Authority Fund to participating health institutions for financing or refinancing the acquisition, construction, or remodeling of health facilities.

Existing law, the Mental Health Services Act, an initiative measure enacted by the voters as Proposition 63 at the November 2, 2004, statewide general election, establishes the Mental Health Services Oversight and Accountability Commission (commission) to oversee the administration of various parts of the Mental Health Services Act. The act provides that it may be amended by the Legislature by a 2/3 vote of each house as long as the amendment is consistent with and furthers the intent of the act, and that the Legislature may also clarify procedures and terms of the act by majority vote.

Existing law establishes the Investment in Mental Health Wellness Act of 2013. Existing law provides that funds appropriated by the Legislature to the authority for the purposes of the act be made available to selected counties or counties acting jointly, except as otherwise

provided, and used to increase capacity for client assistance and services in crisis intervention, crisis stabilization, crisis residential treatment, rehabilitative mental health services, and mobile crisis support teams. Existing law requires the authority to develop and to consider specified selection criteria for awarding grants, as prescribed. Existing law provides that funds appropriated by the Legislature to the commission for the purposes of the act be allocated to selected counties, counties acting jointly, or city mental health departments, as determined by the commission through a selection process, for triage personnel to provide intensive case management and linkage to services for individuals with mental health disorders. Existing law requires the commission to consider specified selection criteria for awarding grants. Existing law prohibits funds awarded by the authority or commission from being used to supplant existing financial and resource commitments of the grantee.

This bill would extend the application of these provisions for purposes of providing mental health services to children and youth 21 years of age and under, subject to appropriation in the 2016 Budget Act. The bill would similarly provide that funds appropriated by the Legislature to the authority for these purposes be made available to selected counties or counties acting jointly, and used to increase capacity for client assistance and crisis services, as specified. The bill would require the authority to develop and consider specified selection criteria for awarding grants, as prescribed. The bill would similarly provide that funds appropriated by the Legislature to the commission for these purposes be allocated to selected counties, counties acting jointly, or city mental health departments, as determined by the commission through a selection process, for specified purposes. The bill would require the commission to consider specified selection criteria for awarding grants. The bill would require the authority and the commission to provide prescribed reports to the fiscal and policy committees of the Legislature by January 1, 2018, and annually thereafter.

(10) Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services and under which qualified low-income persons receive health care benefits. The Medi-Cal program is, in part, governed and funded by federal Medicaid provisions.

Existing federal law requires the state to seek adjustment or recovery from an individual's estate for specified medical assistance, including

nursing facility services, home and community-based services, and related hospital and prescription drug services, if the individual was 55 years of age or older when he or she received the medical assistance. Existing federal law allows the state, at its own option, to seek recovery for any items or services covered under the state's Medicaid plan.

Existing state law, with certain exceptions, requires the State Department of Health Care Services to claim against the estate of a decedent, or against any recipient of the property of that decedent by distribution or survival, an amount equal to the payments for Medi-Cal services received or the value of the property received by any recipient from the decedent by distribution or survival, whichever is less. Existing law provides for certain exemptions that restrict the department from filing a claim against a decedent's property, including if there is a surviving spouse during his or her lifetime. Existing law requires the department, however, to make a claim upon the death of the surviving spouse, as prescribed. Existing law requires the department to waive its claim, in whole or in part, if it determines that enforcement of the claim would result in a substantial hardship, as specified. Existing law, which has been held invalid by existing case law, provides that the exemptions shall only apply to the proportionate share of the decedent's estate or property that passes to those recipients, by survival or distribution, who qualify for the exemptions.

This bill would instead require the department to make these claims only in specified circumstances for those health care services that the state is required to recover under federal law and would define health care services for these purposes. The bill would limit any claims against the estate of a decedent to only the real and personal property or other assets in the individual's probate estate that the state is required to seek recovery from under federal law. The bill would delete the proportionate share provision and would delete the requirement that the department make a claim upon the death of the surviving spouse. The bill would prohibit the department from filing a claim against a decedent's property if there is a surviving registered domestic partner. The bill would require the department, subject to federal approval, to waive its claim when the estate subject to recovery is a homestead of modest value, as defined. The bill would limit the amount of interest that is entitled to accrue on a voluntary postdeath lien, as specified. The bill would also require the department to provide a current or former member, or his or her authorized representative, upon request, with a copy of the amount of Medi-Cal expenses that would be

recoverable under these provisions, as specified. The bill would apply the changes made by these provisions only to individuals who die on or after January 1, 2017.

(11) Existing law requires the State Department of Health Care Services to establish and administer, until July 1, 2021, the Medi-Cal Electronic Health Records Incentive Program, for the purposes of providing federal incentive payments to Medi-Cal providers for the implementation and use of electronic records systems. Existing law generally prohibits General Fund moneys from being used for this purpose, except that no more than \$200,000 from the General Fund may be used annually for state administrative costs associated with implementing these provisions.

This bill would increase the amount of General Fund moneys that may be used annually for state administrative costs to no more than \$425,000.

(12) Existing law provides for a schedule of benefits under the Medi-Cal program, which includes Early and Periodic Screening, Diagnosis, and Treatment for any individual under 21 years of age, consistent with the requirements of federal law. Under existing law, to the extent required by the federal government and effective no sooner than required by the federal government, behavioral health treatment (BHT), as defined, is a covered service for individuals under 21 years of age, as specified.

This bill would authorize the department, commencing on the effective date of the bill to March 31, 2017, inclusive, to make available to specified individuals whom the department identifies as no longer eligible for Medi-Cal solely due to the transition of BHT coverage pursuant to the above provisions, contracted services to assist the individuals with health insurance enrollment, without regard to whether federal funds are available for the contracted services.

(13) Existing law prohibits the reimbursement to Medi-Cal pharmacy providers for legend and nonlegend drugs, as defined, from exceeding the lowest of either the estimated acquisition cost of the drug plus a professional fee for dispensing or the pharmacy's usual and customary charge, as defined. The professional fee is statutorily set at \$7.25 per dispensed prescription and at \$8 for legend drugs dispensed to a beneficiary residing in a skilled nursing facility or intermediate care facility, as defined. If the State Department of Health Care Services determines that a change in the dispensing fee is necessary, existing law requires the department to establish the new dispensing fee through

the state budget process and prohibits any adjustments to the dispensing fee from exceeding a specified amount. Existing law requires the estimated acquisition cost of the drug to be equal to the lowest of the average wholesale price minus 17%, the average acquisition cost, the federal upper limit, or the maximum allowable ingredient cost.

This bill, commencing April 1, 2017, would make inoperative the prescribed amounts for the professional fees and, instead, require the department to implement a new professional dispensing fee or fees, as defined, established by the department consistent with a specified provision of federal law. The bill would require the department to adjust the professional dispensing fee through the state budget process if necessary to comply with federal Medicaid requirements. The bill would revise the definition of “federal upper limit.”

(14) Existing law provides for a schedule of benefits under the Medi-Cal program, which includes specified outpatient services, including acupuncture to the extent federal matching funds are provided for acupuncture, subject to utilization controls. Notwithstanding this provision, existing law excludes certain optional Medi-Cal benefits, including, among others, acupuncture services, from coverage under the Medi-Cal program.

This bill, commencing July 1, 2016, would restore acupuncture services as a covered benefit under the Medi-Cal program.

(15) Existing law requires counties to determine Medi-Cal eligibility, and requires each county to meet specified performance standards in administering Medi-Cal eligibility. Existing law requires the department to establish and maintain a plan, known as the County Administrative Cost Control Plan, for the purpose of effectively controlling costs related to the county administration of the determination of eligibility for benefits under the Medi-Cal program within the amounts annually appropriated for that administration. Under existing law, the Legislature finds and declares that linking appropriate funding for county Medi-Cal administrative operations, including annual cost-of-doing-business adjustments, with performance standards will give counties the incentive to meet the performance standards and enable them to continue to do the work they do on behalf of the state. Existing law further provides that it is the intent of the Legislature to provide appropriate funding to the counties for the effective administration of the Medi-Cal program, and that it is the intent of the Legislature to not appropriate money for a cost-of-doing-business adjustment for specified fiscal years.

This bill would additionally provide that it is the intent of the Legislature to not appropriate funds for the cost-of-doing-business adjustment for the 2016–17 fiscal year.

(16) Under existing law, the Emergency Medical Air Transportation Act, a penalty of \$4 is imposed upon every conviction for a violation of the Vehicle Code, or a local ordinance adopted pursuant to the Vehicle Code, other than a parking offense. Existing law requires the county or the court that imposed the fine to transfer the moneys collected pursuant to this act to the Emergency Medical Air Transportation Act Fund. Existing law requires the State Department of Health Care Services to administer the Emergency Medical Air Transportation Act Fund and to use the moneys in the fund, upon appropriation by the Legislature, to, among other things, offset the state portion of the Medi-Cal reimbursement rate for emergency medical air transportation services and augment emergency medical air transportation reimbursement payments made through the Medi-Cal program. Under existing law, the assessment of these penalties will terminate on January 1, 2018, and any moneys unexpended and unencumbered in the Emergency Medical Air Transportation Act Fund on June 30, 2019, will transfer to the General Fund. Existing law requires the department, by March 1, 2017, and in coordination with the Department of Finance, to develop a funding plan that ensures adequate reimbursement to emergency medical air transportation providers following the termination of the penalty assessments.

This bill would instead require the department, by March 1, 2017, and in coordination with the Department of Finance, to notify the Legislature of the fiscal impact on the Medi-Cal program resulting from, and the planned reimbursement methodology for emergency medical air transportation services after, the termination of the penalty assessments.

(17) Existing federal law establishes the Program of All-Inclusive Care for the Elderly (PACE), which provides specified services for older individuals so that they may continue living in the community. Federal law authorizes states to implement the PACE program as a Medicaid state option. Existing law authorizes the department to enter into contracts with up to 15 PACE organizations, defined as public or private nonprofit organizations, to implement the PACE program, as specified. Existing law, on and after April 1, 2015, requires the department to establish capitation rates paid to each PACE organization at no less than 95% of the fee-for-service equivalent cost, including the

department's cost of administration, that the department estimates would be payable for all services covered under the PACE organization contract if all those services were to be furnished to Medi-Cal beneficiaries under the fee-for-service program.

This bill would require the department to develop and pay capitation rates to contracted PACE organizations, for rates implemented no earlier than January 1, 2017, in accordance with criteria specific to those organizations, based on, among other things, standardized rate methodologies for similar populations, adjustments for geographic location, and the level of care being provided. The bill would delete the requirement that contracts for implementation of the PACE program be entered into with organizations that are nonprofit.

This bill also would authorize the department, to the extent federal financial participation is available, to seek increased federal regulatory flexibility to modernize the PACE program, as specified. Implementation of the new capitation rate methodology would be contingent on receipt of federal approval and the availability of federal financial participation. The bill would provide alternative rate capitation methodologies, depending upon whether or not the Coordinated Care Initiative is operative, as specified.

(18) This bill would also delete or make inoperative various obsolete provisions of law and make various other technical changes.

(19) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

~~This bill would express the intent of the Legislature to enact statutory changes relating to the Budget Act of 2016.~~

16 include that health care provider in their network. The board may
17 also require a carrier to provide regularly updated information to
18 the Exchange as to whether a health care provider is accepting
19 new patients for a particular health plan. The Exchange may
20 provide an integrated and uniform consumer directory of health
21 care providers indicating which carriers the providers contract with

(b) The department may award grants itself or enter into contracts to carry out the provisions of subdivision (a).  13 imposed pursuant to Article 7.6 (commencing with Section
 14 1324.20).

15 (c) Notwithstanding any other law, the Controller may use the

19 *SEC. 4. Section 120955 of the Health and Safety Code is*
 20 *amended to read:*

21 120955. (a) (1) To the extent that state and federal funds are
 22 appropriated in the annual Budget Act for these purposes, the
 23 director shall establish and may administer a program to provide
 24 drug treatments to persons infected with human immunodeficiency
 25 virus (HIV), the etiologic agent of acquired immunodeficiency
 26 syndrome ~~(AIDS)~~: (AIDS), and to persons who are HIV-negative
 27 who have been prescribed preexposure prophylaxis included on
 28 the ADAP formulary for the prevention of HIV infection. To the
 29 extent allowable under federal law, and as appropriated in the
 30 annual Budget Act, the director may expend funding from the AIDS
 31 Drug Assistance Program Rebate Fund for this HIV infection
 32 prevention program to cover the costs of prescribed ADAP
 33 formulary medications for the prevention of HIV infection and
 34 related medical copays, coinsurance, and deductibles. If the
 35 director makes a formal determination that, in any fiscal year,
 36 funds appropriated for the program will be insufficient to provide
 37 all of those drug treatments to existing eligible persons for the
 38 fiscal year and that a suspension of the implementation of the
 39 program is necessary, the director may suspend eligibility
 40 determinations and enrollment in the program for the period of

1 time necessary to meet the needs of existing eligible persons in
2 the program.

3 (2) The director, in consultation with the AIDS Drug Assistance
4 Program Medical Advisory Committee, shall develop, maintain,
5 and update as necessary a list of drugs to be provided under this
6 program. The list shall be exempt from the requirements of the
7 Administrative Procedure Act (Chapter 3.5 (commencing with
8 Section 11340), Chapter 4 (commencing with Section 11370), and
9 Chapter 5 (commencing with Section 11500) of Part 1 of Division
10 3 of Title 2 of the Government Code), and shall not be subject to
11 the review and approval of the Office of Administrative Law.

12 (b) The director may grant funds to a county public health
13 department through standard agreements to administer this program
14 in that county. To maximize the recipients' access to drugs covered
15 by this program, the director shall urge the county health
16 department in counties granted these funds to decentralize
17 distribution of the drugs to the recipients.

18 (c) The director shall establish a rate structure for reimbursement
19 for the cost of each drug included in the program. Rates shall not
20 be less than the actual cost of the drug. However, the director may
21 purchase a listed drug directly from the manufacturer and negotiate
22 the most favorable bulk price for that drug.

23 (d) Manufacturers of the drugs on the list shall pay the
24 department a rebate equal to the rebate that would be applicable
25 to the drug under Section 1927(c) of the federal Social Security
26 Act (42 U.S.C. Sec. 1396r-8(c)) plus an additional rebate to be
27 negotiated by each manufacturer with the department, except that
28 no rebates shall be paid to the department under this section on
29 drugs for which the department has received a rebate under Section
30 1927(c) of the federal Social Security Act (42 U.S.C. Sec.
31 1396r-8(c)) or that have been purchased on behalf of county health
32 departments or other eligible entities at discount prices made
33 available under Section 256b of Title 42 of the United States Code.

34 (e) The department shall submit an invoice, not less than two
35 times per year, to each manufacturer for the amount of the rebate
36 required by subdivision (d).

37 (f) Drugs may be removed from the list for failure to pay the
38 rebate required by subdivision (d), unless the department
39 determines that removal of the drug from the list would cause
40 substantial medical hardship to beneficiaries.

1 (g) The department may adopt emergency regulations to
2 implement amendments to this chapter made during the 1997–98
3 Regular Session, in accordance with the Administrative Procedure
4 Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of
5 Division 3 of Title 2 of the Government Code). The initial adoption
6 of emergency regulations shall be deemed to be an emergency and
7 considered by the Office of Administrative Law as necessary for
8 the immediate preservation of the public peace, health and safety,
9 or general welfare. Emergency regulations adopted pursuant to
10 this section shall remain in effect for no more than 180 days.

11 (h) Reimbursement under this chapter shall not be made for any
12 drugs that are available to the recipient under any other private,
13 state, or federal programs, or under any other contractual or legal
14 entitlements, except that the director may authorize an exemption
15 from this subdivision where exemption would represent a cost
16 savings to the state.

17 (i) The department may also subsidize certain cost-sharing
18 requirements for persons otherwise eligible for the AIDS Drug
19 Assistance Program (ADAP) with existing non-ADAP drug
20 coverage by paying for prescription drugs included on the ADAP
21 formulary within the existing ADAP operational structure up to,
22 but not exceeding, the amount of that cost-sharing obligation. This
23 cost sharing may only be applied in circumstances in which the
24 other payer recognizes the ADAP payment as counting toward the
25 individual's cost-sharing obligation. ~~If the director determines that~~
26 ~~it would result in a cost savings to the state, the~~ The department
27 may subsidize, using available federal funds and moneys from the
28 AIDS Drug Assistance Program Rebate Fund, costs associated
29 with a health care service plan or health insurance policy, including
30 medical copayments and deductibles for outpatient care, and
31 premiums to purchase or maintain health insurance coverage.

32 *SEC. 5. Section 120960 of the Health and Safety Code is*
33 *amended to read:*

34 120960. (a) The department shall establish uniform standards
35 of financial eligibility for the drugs under the program established
36 under this chapter.

37 (b) Nothing in the financial eligibility standards shall prohibit
38 drugs to an otherwise eligible person whose modified adjusted
39 gross income does not exceed 500 percent of the federal poverty
40 level per year based on family size and household income.

1 However, the director may authorize drugs for persons with
2 incomes higher than 500 percent of the federal poverty level per
3 year based on family size and household income if the estimated
4 cost of those drugs in one year is expected to exceed 20 percent
5 of the person's modified adjusted gross income.

6 ~~(e) The department shall establish and may administer a payment~~
7 ~~schedule to determine the payment obligation of a person receiving~~
8 ~~drugs. No person shall be obligated for payment whose modified~~
9 ~~adjusted gross income is less than four times the federal poverty~~
10 ~~level based on family size and household income. The payment~~
11 ~~obligation shall be the lesser of the following:~~

12 ~~(1) Two times the person's annual state income tax liability,~~
13 ~~less funds expended by the person for health insurance premiums.~~

14 ~~(2) The cost of drugs.~~

15 ~~(d) Persons who have been determined to have a payment~~
16 ~~obligation pursuant to subdivision (c) shall be advised by the~~
17 ~~department of their right to request a reconsideration of that~~
18 ~~determination to the department. Written notice of the right to~~
19 ~~request a reconsideration shall be provided to the person at the~~
20 ~~time that notification is given that he or she is subject to a payment~~
21 ~~obligation. The payment determination shall be reconsidered if~~
22 ~~one or more of the following apply:~~

23 ~~(1) The determination was based on an incorrect calculation~~
24 ~~made pursuant to subdivision (b).~~

25 ~~(2) There has been a substantial change in income since the~~
26 ~~previous eligibility determination that has resulted in a current~~
27 ~~income that is inadequate to meet the calculated payment~~
28 ~~obligation.~~

29 ~~(3) Unavoidable family or medical expenses that reduce the~~
30 ~~disposable income and that result in current income that is~~
31 ~~inadequate to meet the payment obligation.~~

32 ~~(4) Any other situation that imposes undue financial hardship~~
33 ~~on the person and would restrict his or her ability to meet the~~
34 ~~payment obligation.~~

35 ~~(e) The department may exempt a person, who has been~~
36 ~~determined to have a payment obligation pursuant to subdivision~~
37 ~~(c), from the obligation if both of the following criteria are~~
38 ~~satisfied:~~

39 ~~(1) One or more of the circumstances specified in subdivision~~
40 ~~(d) exist.~~

1 ~~(2) The department has determined that the payment obligation~~
2 ~~will impose an undue financial hardship on the person.~~

3 ~~(f) If a person requests reconsideration of the payment obligation~~
4 ~~determination, the person shall not be obligated to make any~~
5 ~~payment until the department has completed the reconsideration~~
6 ~~request pursuant to subdivision (d). If the department denies the~~
7 ~~exemption, the person shall be obligated to make payments for~~
8 ~~drugs received while the reconsideration request is pending.~~

9 ~~(g)~~

10 (c) A county public health department administering this
11 program pursuant to an agreement with the director pursuant to
12 subdivision (b) of Section 120955 shall use no more than 5 percent
13 of total payments it collects pursuant to this section to cover any
14 administrative costs related to eligibility determinations, reporting
15 requirements, and the collection of payments.

16 ~~(h)~~

17 (d) A county public health department administering this
18 program pursuant to subdivision (b) of Section 120955 shall
19 provide all drugs added to the program pursuant to subdivision (a)
20 of Section 120955 within 60 days of the action of the ~~director,~~
21 ~~subject to the repayment obligations specified in subdivision (d)~~
22 ~~of Section 120965: director.~~

9 130301. The Legislature finds and declares the following:

10 (a) The federal Health Insurance Portability and Accountability
11 Act (Public Law 104-191), known as HIPAA, was enacted on
12 August 21, 1996.

13 (b) HIPAA extends health coverage benefits to workers after
14 they terminate or change employment by allowing the worker to
15 participate in existing group coverage plans, thereby avoiding the
16 additional expense associated with obtaining individual coverage
17 as well as the potential loss of coverage because of a preexisting
18 health condition.

19 (c) Administrative simplification is a key feature of HIPAA,
20 requiring standard national identifiers for providers, employers,
21 and health plans and the development of uniform standards for the
22 coding and transmission of claims and health care information.
23 Administration simplification is intended to promote the use of
24 information technology, thereby reducing costs and increasing
25 efficiency in the health care industry.

26 (d) HIPAA also contains ~~new~~ standards for safeguarding the
27 privacy and security of health information. Therefore, the
28 development of policies for safeguarding the privacy and security
29 of health records is a fundamental and indispensable part of HIPAA
30 implementation that must accompany or precede the expansion or
31 standardization of technology for recording or transmitting health
32 information.

33 (e) The federal Department of Health and Human Services has
34 published, and continues to publish, rules pertaining to the
35 implementation of HIPAA. Following a 60-day congressional
36 concurrence period, health providers and insurers have 24 months
37 in which to implement these rules.

38 (f) These federal rules directly apply to state and county
39 departments that provide health coverage, health care, mental
40 health services, and alcohol and drug treatment programs. Other

1 state and county departments are subject to these rules to the extent
2 they use or exchange information with the departments to which
3 the federal rules directly apply.

4 (g) In view of the substantial changes that HIPAA will require
5 in the practices of both private and public health entities and their
6 business associates, the ability of California government to
7 continue the delivery of vital health services will depend upon the
8 implementation ~~of~~ *of, and compliance with*, HIPAA in a manner
9 that is coordinated among state departments as well as our partners
10 in county government and the private health sector.

11 (h) The implementation of HIPAA shall be accomplished as
12 required by federal law and regulations and shall be a priority for
13 state departments.

14 *SEC. 10. Section 130303 of the Health and Safety Code is*
15 *amended to read:*

20 entities to establish policy, provide direction to state entities,
21 monitor progress, and report on implementation ~~efforts~~. *and*

28 not limited to, determining the application of federal law pertaining
29 to HIPAA.

30 (b) Staff with expertise in the rules promulgated by HIPAA.

32 ~~tools and to modify the curricula and tools as required by the state's~~
33 ~~ongoing HIPAA compliance effort.~~

34 ~~(d) Information technology staff.~~

36 (c) Staff, as necessary, to coordinate and monitor the progress

12 *SEC. 20. Section 5848.5 of the Welfare and Institutions Code*
13 *is amended to read:*

14 5848.5. (a) The Legislature finds and declares all of the
15 following:

16 (1) California has realigned public community mental health
17 services to counties and it is imperative that sufficient
18 community-based resources be available to meet the mental health
19 needs of eligible individuals.

20 (2) Increasing access to effective outpatient and crisis
21 stabilization services provides an opportunity to reduce costs
22 associated with expensive inpatient and emergency room care and
23 to better meet the needs of individuals with mental health disorders
24 in the least restrictive manner possible.

25 (3) Almost one-fifth of people with mental health disorders visit
26 a hospital emergency room at least once per year. If an adequate
27 array of crisis services is not available, it leaves an individual with
28 little choice but to access an emergency room for assistance and,
29 potentially, an unnecessary inpatient hospitalization.

30 (4) Recent reports have called attention to a continuing problem
31 of inappropriate and unnecessary utilization of hospital emergency
32 rooms in California due to limited community-based services for
33 individuals in psychological distress and acute psychiatric crisis.
34 Hospitals report that 70 percent of people taken to emergency
35 rooms for psychiatric evaluation can be stabilized and transferred
36 to a less intensive level of crisis care. Law enforcement personnel
37 report that their personnel need to stay with people in the
38 emergency room waiting area until a placement is found, and that
39 less intensive levels of care tend not to be available.

1 (5) Comprehensive public and private partnerships at both local
2 and regional levels, including across physical health services,
3 mental health, substance use disorder, law enforcement, social
4 services, and related supports, are necessary to develop and
5 maintain high quality, patient-centered, and cost-effective care for
6 individuals with mental health disorders that facilitates their
7 recovery and leads towards wellness.

8 (6) The recovery of individuals with mental health disorders is
9 important for all levels of government, business, and the local
10 community.

11 (b) This section shall be known, and may be cited, as the
12 Investment in Mental Health Wellness Act of 2013. The objectives
13 of this section are to do all of the following:

14 (1) Expand access to early intervention and treatment services
15 to improve the client experience, achieve recovery and wellness,
16 and reduce costs.

17 (2) Expand the continuum of services to address crisis
18 intervention, crisis stabilization, and crisis residential treatment
19 needs that are wellness, resiliency, and recovery oriented.

20 (3) Add at least 25 mobile crisis support teams and at least 2,000
21 crisis stabilization and crisis residential treatment beds to bolster
22 capacity at the local level to improve access to mental health crisis
23 services and address unmet mental health care needs.

24 (4) Add at least 600 triage personnel to provide intensive case
25 management and linkage to services for individuals with mental
26 health care disorders at various points of access, such as at
27 designated community-based service points, homeless shelters,
28 and clinics.

29 (5) Reduce unnecessary hospitalizations and inpatient days by
30 appropriately utilizing community-based services and improving
31 access to timely assistance.

32 (6) Reduce recidivism and mitigate unnecessary expenditures
33 of local law enforcement.

34 (7) Provide local communities with increased financial resources
35 to leverage additional public and private funding sources to achieve
36 improved networks of care for individuals with mental health
37 disorders.

38 (8) *Provide a complete continuum of crisis services for children*
39 *and youth 21 years of age and under regardless of where they live*
40 *in the state. The funds included in the 2016 Budget Act for the*

38 *for this purpose, it is the intent of the Legislature to authorize the*
39 *California Health Facilities Financing Authority, hereafter referred*
40 *to as the authority, and the Mental Health Services Oversight and*

(d) Funds appropriated by the Legislature to the authority for purposes of this section shall be made available to selected counties, or counties acting jointly. The authority may, at its discretion, also give consideration to private nonprofit corporations and public agencies in an area or region of the state if a county, or counties acting jointly, affirmatively supports this designation and collaboration in lieu of a county government directly receiving grant funds.

(1) Grant awards made by the authority shall be used to expand local resources for the development, capital, equipment acquisition, and applicable program startup or expansion costs to increase capacity for client assistance and services in the following areas:

(A) Crisis intervention, as authorized by Sections 14021.4, 14680, and 14684.

(B) Crisis stabilization, as authorized by Sections 14021.4, 14680, and 14684.

The authority shall ensure that grants result in cost-effective expansion of the number of community-based crisis resources in regions and communities selected for funding. The authority shall also take into account at least the following criteria and factors

1 when selecting recipients of grants and determining the amount
2 of grant awards:

3 (A) Description of need, including, at a minimum, a
4 comprehensive description of the project, community need,

7 services, and related assistance, as applicable, and a description
8 of the request for funding.

9 (B) Ability to serve the target population, which includes
10 individuals eligible for Medi-Cal and individuals eligible for county
11 health and mental health services.

32 which shall take into consideration the number of projects awarded
33 to the grantee, as described in paragraph (1), and shall reflect
34 reasonable costs for the project and geographic region. The
35 authority may allocate a grant in increments contingent upon the
36 phases of a project.

37 (4) Funds awarded by the authority pursuant to this section may

(e) Of the funds specified in paragraph (8) of subdivision (b), it is the intent of the Legislature to authorize the authority and the commission to administer competitive selection processes as provided in this section for capital capacity and program expansion to increase capacity for mobile crisis support, crisis intervention, crisis stabilization services, crisis residential treatment, family

25 extended patient education, counseling, monitoring, or clinical
26 support.

27 ~~(13)~~

28 (14) “Volume weighted average” means the aggregated average
29 volume for a group of legend or nonlegend drugs, weighted by
30 each drug’s percentage of the group’s total volume in the Medi-Cal
31 fee-for-service program during the previous six months. For
32 purposes of this paragraph, volume is based on the standard billing
33 unit used for the legend or nonlegend drugs.

34 ~~(14)~~

35 (15) “Wholesaler” means a drug wholesaler that is engaged in
36 wholesale distribution of prescription drugs to retail pharmacies
37 in California.

38 ~~(15)~~

(16) “Wholesaler acquisition cost” means the price for a drug product listed as the wholesaler acquisition cost in the department’s primary price reference source.

(b) (1) Reimbursement to Medi-Cal pharmacy providers for legend and nonlegend drugs shall not exceed the lowest of either of the following:

(A) The estimated acquisition cost of the drug plus a professional fee for dispensing; ~~dispensing fee.~~

(B) The pharmacy’s usual and customary charge as defined in Section 14105.455.

~~(2) The professional dispensing fee shall be seven dollars and twenty-five cents (\$7.25) per dispensed prescription. The professional prescription, and the professional dispensing fee for legend drugs dispensed to a beneficiary residing in a skilled nursing facility or intermediate care facility shall be eight dollars (\$8) per dispensed prescription. For purposes of this paragraph, “skilled nursing facility” and “intermediate care facility” shall have the same meaning as those terms are defined in Division 5 (commencing with Section 70001) of Title 22 of the California Code of Regulations. If the department determines that a change in dispensing fee is necessary pursuant to this section, the department shall establish the new dispensing fee through the budget process and implement the new dispensing fee pursuant to subdivision (d).~~

~~(B) Commencing April 1, 2017, the department shall implement a new professional dispensing fee or fees.~~

~~(i) When establishing the new professional dispensing fee or fees, the department shall establish the professional dispensing fee or fees consistent with subsection (d) of Section 447.518 of Title 42 of the Code of Federal Regulations.~~

~~(ii) The department shall consult with interested parties and appropriate stakeholders in implementing this subparagraph.~~

~~(C) If the department determines that a change in the amount of a professional dispensing fee is necessary pursuant to this section in order to meet federal Medicaid requirements, the department shall establish the new professional dispensing fee through the state budget process.~~

(3) The department shall establish the estimated acquisition cost of legend and nonlegend drugs as follows:

1 (A) For single source and innovator multiple source drugs, the
2 estimated acquisition cost shall be equal to the lowest of the
3 average wholesale price minus 17 percent, the average acquisition
4 cost, the federal upper limit, or the MAIC.

5 (B) For noninnovator multiple source drugs, the estimated
6 acquisition cost shall be equal to the lowest of the average
7 wholesale price minus 17 percent, the average acquisition cost,
8 the federal upper limit, or the MAIC.

9 (C) Average wholesale price shall not be used to establish the
10 estimated acquisition cost once the department has determined
11 that the average acquisition cost methodology has been fully
12 implemented.

13 (4) For purposes of paragraph (3), the department shall establish
14 a list of MAICs for generically equivalent drugs, which shall be
15 published in pharmacy provider bulletins and manuals. The
16 department shall establish a MAIC only when three or more
17 generically equivalent drugs are available for purchase and
18 dispensing by retail pharmacies in California. The department shall
19 update the list of MAICs and establish additional MAICs in
20 accordance with all of the following:

21 (A) The department shall base the MAIC on the mean of the
22 average manufacturer's price of drugs generically equivalent to
23 the particular innovator drug plus a percent markup determined
24 by the department to be necessary for the MAIC to represent the
25 average purchase price paid by retail pharmacies in California.

26 (B) If average manufacturer prices are unavailable, the
27 department shall establish the MAIC in one of the following ways:

28 (i) Based on the volume weighted average of wholesaler
29 acquisition costs of drugs generically equivalent to the particular
30 innovator drug plus a percent markup determined by the department
31 to be necessary for the MAIC to represent the average purchase
32 price paid by retail pharmacies in California.

33 (ii) Pursuant to a contract with a vendor for the purpose of
34 surveying drug price information, collecting data, and calculating
35 a proposed MAIC.

36 (iii) Based on the volume weighted average acquisition cost of
37 drugs generically equivalent to the particular innovator drug
38 adjusted by the department to represent the average purchase price
39 paid by Medi-Cal pharmacy providers.

1 (C) The department shall update MAICs at least every three
2 months and notify Medi-Cal providers at least 30 days prior to the
3 effective date of a MAIC.

4 (D) The department shall establish a process for providers to
5 seek a change to a specific MAIC when the providers believe the
6 MAIC does not reflect current available market prices. If the
7 department determines a MAIC change is warranted, the
8 department may update a specific MAIC prior to notifying
9 providers.

10 (E) In determining the average purchase price, the department
11 shall consider the provider-related costs of the products that
12 include, but are not limited to, shipping, handling, storage, and
13 delivery. Costs of the provider that are included in the costs of the
14 dispensing shall not be used to determine the average purchase
15 price.

16 (5) (A) The department may establish the average acquisition
17 cost in one of the following ways:

18 (i) Based on the volume weighted average acquisition cost
19 adjusted by the department to ensure that the average acquisition
20 cost represents the average purchase price paid by retail pharmacies
21 in California.

22 (ii) Based on the proposed average acquisition cost as calculated
23 by the vendor pursuant to subparagraph (B).

24 (iii) Based on a national pricing benchmark obtained from the
25 federal Centers for Medicare and Medicaid Services or on a similar
26 benchmark listed in the department's primary price reference
27 source adjusted by the department to ensure that the average
28 acquisition cost represents the average purchase price paid by retail
29 pharmacies in California.

30 (B) For the purposes of paragraph (3), the department may
31 contract with a vendor for the purposes of surveying drug price
32 information, collecting data from providers, wholesalers, or drug
33 manufacturers, and calculating a proposed average acquisition
34 cost.

35 (C) (i) Medi-Cal pharmacy providers shall submit drug price
36 information to the department or a vendor designated by the
37 department for the purposes of establishing the average acquisition
38 cost. The information submitted by pharmacy providers shall
39 include, but not be limited to, invoice prices and all discounts,
40 rebates, and refunds known to the provider that would apply to the

1 acquisition cost of the drug products purchased during the calendar
2 quarter. Pharmacy warehouses shall be exempt from the survey
3 process, but shall provide drug cost information upon audit by the
4 department for the purposes of validating individual pharmacy
5 provider acquisition costs.

6 (ii) Pharmacy providers that fail to submit drug price information
7 to the department or the vendor as required by this subparagraph
8 shall receive notice that if they do not provide the required
9 information within five working days, they shall be subject to
10 suspension under subdivisions (a) and (c) of Section 14123.

11 (D) (i) For new drugs or new formulations of existing drugs,
12 ~~where if~~ drug price information is unavailable pursuant to clause
13 (i) of subparagraph (C), drug manufacturers and wholesalers shall
14 submit drug price information to the department or a vendor
15 designated by the department for the purposes of establishing the
16 average acquisition cost. Drug price information shall include, but
17 not be limited to, net unit sales of a drug product sold to retail
18 pharmacies in California divided by the total number of units of
19 the drug sold by the manufacturer or wholesaler in a specified
20 period of time determined by the department.

21 (ii) Drug products from manufacturers and wholesalers that fail
22 to submit drug price information to the department or the vendor
23 as required by this subparagraph ~~may~~ *shall* not be a reimbursable
24 benefit of the Medi-Cal program for those manufacturers and
25 wholesalers until the department has established the average
26 acquisition cost for those drug products.

27 (E) Drug pricing information provided to the department or a
28 vendor designated by the department for the purposes of
29 establishing the average acquisition cost pursuant to this section
30 shall be confidential and shall be exempt from disclosure under
31 the California Public Records Act (Chapter 3.5 (commencing with
32 Section 6250) of Division 7 of Title 1 of the Government Code).

33 (F) Prior to the implementation of an average acquisition cost
34 methodology, the department shall collect data through a survey
35 of pharmacy providers for purposes of establishing a professional
36 ~~fee for dispensing~~ *dispensing fee or fees* in compliance with federal
37 Medicaid requirements.

38 (i) The department shall seek stakeholder input on the retail
39 pharmacy factors and elements used for the pharmacy survey
40 relative to both average acquisition costs and ~~dispensing costs~~.

1 ~~Any adjustment to the dispensing fee shall not exceed the aggregate~~
2 ~~savings associated with the implementation of the average~~
3 ~~acquisition cost methodology.~~ *professional dispensing costs.*

4 (ii) For drug products provided by pharmacy providers pursuant
5 to subdivision (f) of Section 14105.3, a differential professional
6 fee or payment for services to provide specialized care may be
7 considered as part of the contracts established pursuant to that
8 section.

9 (G) When the department implements the average acquisition
10 cost methodology, the department shall update the Medi-Cal claims
11 processing system to reflect the average acquisition cost of drugs
12 not later than 30 days after the department has established average
13 acquisition cost pursuant to subparagraph (A).

14 (H) Notwithstanding any other ~~provision of~~ law, if the
15 department implements average acquisition cost pursuant to clause
16 (i) or (ii) of subparagraph (A), the department shall update actual
17 acquisition costs at least every three months and notify Medi-Cal
18 providers at least 30 days prior to the effective date of any change
19 in an actual acquisition cost.

20 (I) The department shall establish a process for providers to
21 seek a change to a specific average acquisition cost when the
22 providers believe the average acquisition cost does not reflect
23 current available market prices. If the department determines an
24 average acquisition cost change is warranted, the department may
25 update a specific average acquisition cost prior to notifying
26 providers.

27 (c) The director shall implement this section in a manner that
28 is consistent with federal Medicaid law and regulations. The
29 director shall seek any necessary federal approvals for the
30 implementation of this section. This section shall be implemented
31 only to the extent that federal approval is obtained.

32 (d) Notwithstanding Chapter 3.5 (commencing with Section
33 11340) of Part 1 of Division 3 of Title 2 of the Government Code,
34 the department may implement, interpret, or make specific this
35 section by means of a provider bulletin or notice, policy letter, or
36 other similar instructions, without taking regulatory action.

37 (e) The department may enter into contracts with a vendor for
38 the purposes of implementing this section on a bid or nonbid basis.
39 In order to achieve maximum cost savings, the Legislature declares
40 that an expedited process for contracts under this section is

1 necessary. Therefore, contracts entered into to implement this
2 section, and all contract amendments and change orders, shall be
3 exempt from Chapter 2 (commencing with Section 10290) of Part
4 2 of Division 2 of the Public Contract Code.

5 (f) (1) The rates provided for in this section shall be
6 implemented only if the director determines that the rates will
7 comply with applicable federal Medicaid requirements and that
8 federal financial participation will be available.

9 (2) In determining whether federal financial participation is
10 available, the director shall determine whether the rates comply
11 with applicable federal Medicaid requirements, including those
12 set forth in Section 1396a(a)(30)(A) of Title 42 of the United States
13 Code.

14 (3) To the extent that the director determines that the rates do
15 not comply with applicable federal Medicaid requirements or that
16 federal financial participation is not available with respect to any
17 rate of reimbursement described in this section, the director retains
18 the discretion not to implement that rate and may revise the rate
19 as necessary to comply with federal Medicaid requirements.

20 (g) The director shall seek any necessary federal approvals for
21 the implementation of this section.

22 (h) This section shall not be construed to require the department
23 to collect cost data, to conduct cost studies, or to set or adjust a
24 rate of reimbursement based on cost data that has been collected.

25 (i) Adjustments to pharmacy drug product payment pursuant to
26 Section 14105.192 shall no longer apply when the department
27 determines that the average acquisition cost methodology has been
28 fully implemented and the department's pharmacy budget reduction
29 targets, consistent with payment reduction levels pursuant to
30 Section 14105.192, have been met.

31 (j) Prior to implementation of this section, the department shall
32 provide the appropriate fiscal and policy committees of the
33 Legislature with information on the department's plan for
34 implementation of the average acquisition cost methodology
35 pursuant to this section.

30 Procedure Coding System code or a National Drug Code.

31 (c) The Healthcare Common Procedure Coding System code

39 *contracted services to assist those individuals with health insurance*

1 enrollment, without regard to whether federal funds are available
2 for the contracted services.

3 (2) The contracted services described in paragraph (1) may be
4 provided only to an individual under 21 years of age whom the
5 department identifies as no longer eligible for Medi-Cal solely
6 due to the transition of BHT coverage from the waiver program
7 under Section 1915(c) of the federal Social Security Act to the
8 Medi-Cal state plan in accordance with this section and who meets
9 all of the following criteria:

10 (A) He or she was enrolled in the home and community-based
11 services waiver for persons with developmental disabilities under
12 Section 1915(c) of the Social Security Act as of January 31, 2016.

13 (B) He or she was deemed to be institutionalized in order to
14 establish eligibility under the terms of the waiver.

15 (C) He or she has not been found eligible under any other
16 federally funded Medi-Cal criteria without a share of cost.

17 (D) He or she had received a BHT service from a regional center
18 for persons with developmental disabilities as provided in Chapter
19 5 (commencing with Section 4620) of Division 4.5.

20 ~~(d)~~

21 (e) Notwithstanding Chapter 3.5 (commencing with Section
22 11340) of Part 1 of Division 3 of Title 2 of the Government Code,
23 the department, without taking any further regulatory action, shall
24 implement, interpret, or make specific this section by means of
25 all-county letters, plan letters, plan or provider bulletins, or similar
26 instructions until regulations are adopted. The department shall
27 adopt regulations by July 1, 2017, in accordance with the
28 requirements of Chapter 3.5 (commencing with Section 11340) of
29 Part 1 of Division 3 of Title 2 of the Government Code.
30 Notwithstanding Section 10231.5 of the Government Code,
31 beginning six months after the effective date of this section, the
32 department shall provide semiannual status reports to the
33 Legislature, in compliance with Section 9795 of the Government
34 Code, until regulations have been adopted.

35 ~~(e)~~

36 (f) For the purposes of implementing this section, the department
37 may enter into exclusive or nonexclusive contracts on a bid or
38 negotiated basis, including contracts for the purpose of obtaining
39 subject matter expertise or other technical assistance. Contracts
40 may be statewide or on a more limited geographic basis. Contracts

1 entered into or amended under this subdivision shall be exempt
2 from Part 2 (commencing with Section 10100) of Division 2 of
3 the Public Contract ~~Code~~ *Code, Section 19130 of the Government*
4 *Code*, and Chapter 6 (commencing with Section 14825) of Part
5 5.5 of Division 3 of the Government Code, and shall be exempt
6 from the review or approval of any division of the Department of
7 General Services.

8 ~~(f)~~

9 (g) The department may seek approval of any necessary state
10 plan amendments or waivers to implement this section. The
11 department shall make any state plan amendments or waiver
12 requests public at least 30 days prior to submitting to the federal
13 Centers for Medicare and Medicaid Services, and the department
14 shall work with stakeholders to address the public comments in
15 the state plan amendment or waiver request.

16 ~~(g)~~

17 (h) This section shall be implemented only to the extent that
18 federal financial participation is available and any necessary federal
19 approvals have been obtained.

20 *SEC. 30. Section 14154 of the Welfare and Institutions Code*
21 *is amended to read:*

22 14154. (a) (1) The department shall establish and maintain a
23 plan whereby costs for county administration of the determination
24 of eligibility for benefits under this chapter will be effectively
25 controlled within the amounts annually appropriated for that
26 administration. The plan, to be known as the County Administrative
27 Cost Control Plan, shall establish standards and performance
28 criteria, including workload, productivity, and support services
29 standards, to which counties shall adhere. The plan shall include
30 standards for controlling eligibility determination costs that are
31 incurred by performing eligibility determinations at county
32 hospitals, or that are incurred due to the outstationing of any other
33 eligibility function. Except as provided in Section 14154.15,
34 reimbursement to a county for outstationed eligibility functions
35 shall be based solely on productivity standards applied to that
36 county's welfare department office.

37 (2) (A) The plan shall delineate both of the following:

38 (i) The process for determining county administration base costs,
39 which include salaries and benefits, support costs, and staff
40 development.

(ii) The process for determining funding for caseload changes, cost-of-living adjustments, and program and other changes.

(B) The annual county budget survey document utilized under the plan shall be constructed to enable the counties to provide sufficient detail to the department to support their budget requests.

(3) The plan shall be part of a single state plan, jointly developed by the department and the State Department of Social Services, in conjunction with the counties, for administrative cost control for the California Work Opportunity and Responsibility to Kids (CalWORKs), CalFresh, and Medical Assistance (Medi-Cal) programs. Allocations shall be made to each county and shall be limited by and determined based upon the County Administrative Cost Control Plan. In administering the plan to control county administrative costs, the department shall not allocate state funds to cover county cost overruns that result from county failure to meet requirements of the plan. The department and the State Department of Social Services shall budget, administer, and allocate state funds for county administration in a uniform and consistent manner.

(4) The department and county welfare departments shall develop procedures to ensure the data clarity, consistency, and reliability of information contained in the county budget survey document submitted by counties to the department. These procedures shall include the format of the county budget survey document and process, data submittal and its documentation, and the use of the county budget survey documents for the development of determining county administration costs. Communication between the department and the county welfare departments shall be ongoing as needed regarding the content of the county budget surveys and any potential issues to ensure the information is complete and well understood by involved parties. Any changes developed pursuant to this section shall be incorporated within the state's annual budget process by no later than the 2011–12 fiscal year.

(5) The department shall provide a clear narrative description along with fiscal detail in the Medi-Cal estimate package, submitted to the Legislature in January and May of each year, of each component of the county administrative funding for the Medi-Cal program. This shall describe how the information obtained from

1 the county budget survey documents was utilized and, if applicable,
2 modified and the rationale for the changes.

3 (6) Notwithstanding any other law, the department shall develop
4 and implement, in consultation with county program and fiscal
5 representatives, a new budgeting methodology for Medi-Cal county
6 administrative costs that reflects the impact of PPACA
7 implementation on county administrative work. The new budgeting
8 methodology shall be used to reimburse counties for eligibility
9 processing and case maintenance for applicants and beneficiaries.

10 (A) The budgeting methodology may include, but is not limited
11 to, identification of the costs of eligibility determinations for
12 applicants, and the costs of eligibility redeterminations and case
13 maintenance activities for recipients, for different groupings of
14 cases, based on variations in time and resources needed to conduct
15 eligibility determinations. The calculation of time and resources
16 shall be based on the following factors: complexity of eligibility
17 rules, ongoing eligibility requirements, and other factors as
18 determined appropriate by the department. The development of
19 the new budgeting methodology may include, but is not limited
20 to, county survey of costs, time and motion studies, in-person
21 observations by department staff, data reporting, and other factors
22 deemed appropriate by the department.

23 (B) The new budgeting methodology shall be clearly described,
24 state the necessary data elements to be collected from the counties,
25 and establish the timeframes for counties to provide the data to
26 the state.

27 (C) The new budgeting methodology developed pursuant to this
28 paragraph shall be implemented no sooner than the 2015–16 fiscal
29 year. The department may develop a process for counties to phase
30 in the requirements of the new budgeting methodology.

31 (D) The department shall provide the new budgeting
32 methodology to the legislative fiscal committees by March 1 of
33 the fiscal year immediately preceding the first fiscal year of
34 implementation of the new budgeting methodology.

35 (E) To the extent that the funding for the county budgets
36 developed pursuant to the new budget methodology is not fully
37 appropriated in any given fiscal year, the department, with input
38 from the counties, shall identify and consider options to align
39 funding and workload responsibilities.

1 (F) For purposes of this paragraph, “PPACA” means the federal
2 Patient Protection and Affordable Care Act (Public Law 111-148),
3 as amended by the federal Health Care and Education
4 Reconciliation Act of 2010 (Public Law 111-152) and any
5 subsequent amendments.

6 (G) Notwithstanding Chapter 3.5 (commencing with Section
7 11340) of Part 1 of Division 3 of Title 2 of the Government Code,
8 the department may implement, interpret, or make specific this
9 paragraph by means of all-county letters, plan letters, plan or
10 provider bulletins, or similar instructions until the time any
11 necessary regulations are adopted. The department shall adopt
12 regulations by July 1, 2017, in accordance with the requirements
13 of Chapter 3.5 (commencing with Section 11340) of Part 1 of
14 Division 3 of Title 2 of the Government Code. Beginning six
15 months after the implementation of the new budgeting methodology
16 pursuant to this paragraph, and notwithstanding Section 10231.5
17 of the Government Code, the department shall provide a status
18 report to the Legislature on a semiannual basis, in compliance with
19 Section 9795 of the Government Code, until regulations have been
20 adopted.

21 (b) Nothing in this section, Section 15204.5, or Section 18906
22 shall be construed to limit the administrative or budgetary
23 responsibilities of the department in a manner that would violate
24 Section 14100.1, and thereby jeopardize federal financial
25 participation under the Medi-Cal program.

26 (c) (1) The Legislature finds and declares that in order for
27 counties to do the work that is expected of them, it is necessary
28 that they receive adequate funding, including adjustments for
29 reasonable annual cost-of-doing-business increases. The Legislature
30 further finds and declares that linking appropriate funding for
31 county Medi-Cal administrative operations, including annual
32 cost-of-doing-business adjustments, with performance standards
33 will give counties the incentive to meet the performance standards
34 and enable them to continue to do the work they do on behalf of
35 the state. It is therefore the Legislature’s intent to provide
36 appropriate funding to the counties for the effective administration
37 of the Medi-Cal program at the local level to ensure that counties
38 can reasonably meet the purposes of the performance measures as
39 contained in this section.

1 (2) It is the intent of the Legislature to not appropriate funds for
2 the cost-of-doing-business adjustment for the 2008–09, 2009–10,
3 2010–11, 2011–12, 2012–13, 2014–15, ~~and 2015–16~~ 2015–16,
4 *and 2016–17* fiscal years.

5 (d) The department is responsible for the Medi-Cal program in
6 accordance with state and federal law. A county shall determine
7 Medi-Cal eligibility in accordance with state and federal law. If
8 in the course of its duties the department becomes aware of
9 accuracy problems in any county, the department shall, within
10 available resources, provide training and technical assistance as
11 appropriate. Nothing in this section shall be interpreted to eliminate
12 any remedy otherwise available to the department to enforce
13 accurate county administration of the program. In administering
14 the Medi-Cal eligibility process, each county shall meet the
15 following performance standards each fiscal year:

16 (1) Complete eligibility determinations as follows:

17 (A) Ninety percent of the general applications without applicant
18 errors and are complete shall be completed within 45 days.

19 (B) Ninety percent of the applications for Medi-Cal based on
20 disability shall be completed within 90 days, excluding delays by
21 the state.

22 (2) (A) The department shall establish best-practice guidelines
23 for expedited enrollment of newborns into the Medi-Cal program,
24 preferably with the goal of enrolling newborns within 10 days after
25 the county is informed of the birth. The department, in consultation
26 with counties and other stakeholders, shall work to develop a
27 process for expediting enrollment for all newborns, including those
28 born to mothers receiving CalWORKs assistance.

29 (B) Upon the development and implementation of the
30 best-practice guidelines and expedited processes, the department
31 and the counties may develop an expedited enrollment timeframe
32 for newborns that is separate from the standards for all other
33 applications, to the extent that the timeframe is consistent with
34 these guidelines and processes.

35 (3) Perform timely annual redeterminations, as follows:

36 (A) Ninety percent of the annual redetermination forms shall
37 be mailed to the recipient by the anniversary date.

38 (B) Ninety percent of the annual redeterminations shall be
39 completed within 60 days of the recipient's annual redetermination
40 date for those redeterminations based on forms that are complete

1 and have been returned to the county by the recipient in a timely
2 manner.

3 (C) Ninety percent of those annual redeterminations where the
4 redetermination form has not been returned to the county by the
5 recipient shall be completed by sending a notice of action to the
6 recipient within 45 days after the date the form was due to the
7 county.

8 ~~(D) If a child is determined by the county to change from no~~
9 ~~share of cost to a share of cost and the child meets the eligibility~~
10 ~~criteria for the Healthy Families Program established under Section~~
11 ~~12693.98 of the Insurance Code, the child shall be placed in the~~
12 ~~Medi-Cal-to-Healthy Families Bridge Benefits Program, and these~~
13 ~~cases shall be processed as follows:~~

14 (i) ~~Ninety percent of the families of these children shall be sent~~
15 ~~a notice informing them of the Healthy Families Program within~~
16 ~~five working days from the determination of a share of cost.~~

17 (ii) ~~Ninety percent of all annual redetermination forms for these~~
18 ~~children shall be sent to the Healthy Families Program within five~~
19 ~~working days from the determination of a share of cost if the parent~~
20 ~~has given consent to send this information to the Healthy Families~~
21 ~~Program.~~

22 (iii) ~~Ninety percent of the families of these children placed in~~
23 ~~the Medi-Cal-to-Healthy Families Bridge Benefits Program who~~
24 ~~have not consented to sending the child's annual redetermination~~
25 ~~form to the Healthy Families Program shall be sent a request,~~
26 ~~within five working days of the determination of a share of cost,~~
27 ~~to consent to send the information to the Healthy Families Program.~~

28 (E) ~~Subparagraph (D) shall not be implemented until 60 days~~
29 ~~after the Medi-Cal and Joint Medi-Cal and Healthy Families~~
30 ~~applications and the Medi-Cal redetermination forms are revised~~
31 ~~to allow the parent of a child to consent to forward the child's~~
32 ~~information to the Healthy Families Program.~~

33 (e) The department shall develop procedures in collaboration
34 with the counties and stakeholder groups for determining county
35 review cycles, sampling methodology and procedures, and data
36 reporting.

37 (f) On January 1 of each year, each applicable county, as
38 determined by the department, shall report to the department on
39 the county's results in meeting the performance standards specified
40 in this section. The report shall be subject to verification by the

1 department. County reports shall be provided to the public upon
2 written request.

3 (g) If the department finds that a county is not in compliance
4 with one or more of the standards set forth in this section, the
5 county shall, within 60 days, submit a corrective action plan to the
6 department for approval. The corrective action plan shall, at a
7 minimum, include steps that the county shall take to improve its
8 performance on the standard or standards with which the county
9 is out of compliance. The plan shall establish interim benchmarks
10 for improvement that shall be expected to be met by the county in
11 order to avoid a sanction.

12 (h) (1) If a county does not meet the performance standards for
13 completing eligibility determinations and redeterminations as
14 specified in this section, the department may, at its sole discretion,
15 reduce the allocation of funds to that county in the following year
16 by 2 percent. Any funds so reduced may be restored by the
17 department if, in the determination of the department, sufficient
18 improvement has been made by the county in meeting the
19 performance standards during the year for which the funds were
20 reduced. If the county continues not to meet the performance
21 standards, the department may reduce the allocation by an
22 additional 2 percent for each year thereafter in which sufficient
23 improvement has not been made to meet the performance standards.

24 (2) No reduction of the allocation of funds to a county shall be
25 imposed pursuant to this subdivision for failure to meet
26 performance standards during any period of time in which the
27 cost-of-doing-business increase is suspended.

28 ~~(i) The department shall develop procedures, in collaboration~~
29 ~~with the counties and stakeholders, for developing instructions for~~
30 ~~the performance standards established under subparagraph (D) of~~
31 ~~paragraph (3) of subdivision (d), no later than September 1, 2005.~~

32 ~~(j) No later than September 1, 2005, the department shall issue~~
33 ~~a revised annual redetermination form to allow a parent to indicate~~
34 ~~parental consent to forward the annual redetermination form to~~
35 ~~the Healthy Families Program if the child is determined to have a~~
36 ~~share of cost.~~

37 ~~(k) The department, in coordination with the Managed Risk~~
38 ~~Medical Insurance Board, shall streamline the method of providing~~
39 ~~the Healthy Families Program with information necessary to~~
40 ~~determine Healthy Families eligibility for a child who is receiving~~

1 ~~services under the Medi-Cal-to-Healthy Families Bridge Benefits~~
2 ~~Program.~~

3 ~~(f)~~

4 (i) Notwithstanding Chapter 3.5 (commencing with Section
5 11340) of Part 1 of Division 3 of Title 2 of the Government Code,
6 and except as provided in subparagraph (G) of paragraph (6) of
7 subdivision (a), the department shall, without taking any further
8 regulatory action, implement, interpret, or make specific this
9 section and any applicable federal waivers and state plan
10 amendments by means of all-county letters or similar instructions.

11 *SEC. 31. Section 14301.1 of the Welfare and Institutions Code,*
12 *as amended by Section 28 of Chapter 37 of the Statutes of 2013,*
13 *is amended to read:*

14 14301.1. (a) For rates established on or after August 1, 2007,
15 the department shall pay capitation rates to health plans
16 participating in the Medi-Cal managed care program using actuarial
17 methods and may establish health-plan- and county-specific rates.
18 Notwithstanding any other law, this section shall apply to any
19 managed care organization, licensed under the Knox-Keene Health
20 Care Service Plan Act of 1975 (Chapter 2.2 (commencing with
21 Section 1340) of Division 2 of the Health and Safety Code), that
22 has contracted with the department as a primary care case
23 management plan pursuant to Article 2.9 (commencing with
24 Section 14088) of Chapter 7 to provide services to beneficiaries
25 who are HIV positive or who have been diagnosed with AIDS for
26 rates established on or after July 1, 2012. The department shall
27 utilize a county- and model-specific rate methodology to develop
28 Medi-Cal managed care capitation rates for contracts entered into
29 between the department and any entity pursuant to Article 2.7
30 (commencing with Section 14087.3), Article 2.8 (commencing
31 with Section 14087.5), and Article 2.91 (commencing with Section
32 14089) of Chapter 7 that includes, but is not limited to, all of the
33 following:

34 (1) Health-plan-specific encounter and claims data.

35 (2) Supplemental utilization and cost data submitted by the
36 health plans.

37 (3) Fee-for-service data for the underlying county of operation
38 or other appropriate counties as deemed necessary by the
39 department.

1 (4) Department of Managed Health Care financial statement
2 data specific to Medi-Cal operations.

3 (5) Other demographic factors, such as age, gender, or
4 diagnostic-based risk adjustments, as the department deems
5 appropriate.

6 (b) To the extent that the department is unable to obtain
7 sufficient actual plan data, it may substitute plan model, similar
8 plan, or county-specific fee-for-service data.

9 (c) The department shall develop rates that include
10 administrative costs, and may apply different administrative costs
11 with respect to separate aid code groups.

12 (d) The department shall develop rates that shall include, but
13 are not limited to, assumptions for underwriting, return on
14 investment, risk, contingencies, changes in policy, and a detailed
15 review of health plan financial statements to validate and reconcile
16 costs for use in developing rates.

17 (e) The department may develop rates that pay plans based on
18 performance incentives, including quality indicators, access to
19 care, and data submission.

20 (f) The department may develop and adopt condition-specific
21 payment rates for health conditions, including, but not limited to,
22 childbirth delivery.

23 (g) (1) Prior to finalizing Medi-Cal managed care capitation
24 rates, the department shall provide health plans with information
25 on how the rates were developed, including rate sheets for that
26 specific health plan, and provide the plans with the opportunity to
27 provide additional supplemental information.

28 (2) For contracts entered into between the department and any
29 entity pursuant to Article 2.8 (commencing with Section 14087.5)
30 of Chapter 7, the department, by June 30 of each year, or, if the
31 budget has not passed by that date, no later than five working days
32 after the budget is signed, shall provide preliminary rates for the
33 upcoming fiscal year.

34 (h) For the purposes of developing capitation rates through
35 implementation of this ratesetting methodology, Medi-Cal managed
36 care health plans shall provide the department with financial and
37 utilization data in a form and substance as deemed necessary by
38 the department to establish rates. This data shall be considered
39 proprietary and shall be exempt from disclosure as official
40 information pursuant to subdivision (k) of Section 6254 of the

1 Government Code as contained in the California Public Records
2 Act (Division 7 (commencing with Section 6250) of Title 1 of the
3 Government Code).

4 (i) Notwithstanding any other ~~provision of~~ law, on and after the
5 effective date of the act adding this subdivision, the department
6 may apply this section to the capitation rates it pays under any
7 managed care health plan contract.

8 (j) Notwithstanding Chapter 3.5 (commencing with Section
9 11340) of Part 1 of Division 3 of Title 2 of the Government Code,
10 the department may set and implement managed care capitation
11 rates, and interpret or make specific this section and any applicable
12 federal waivers and state plan amendments by means of plan letters,
13 plan or provider bulletins, or similar instructions, without taking
14 regulatory action.

15 (k) The department shall report, upon request, to the fiscal and
16 policy committees of the respective houses of the Legislature
17 regarding implementation of this section.

18 (l) Prior to October 1, 2011, the risk-adjusted countywide
19 capitation rate shall comprise no more than 20 percent of the total
20 capitation rate paid to each Medi-Cal managed care plan.

21 (m) (1) It is the intent of the Legislature to preserve the policy
22 goal to support and strengthen traditional safety net providers who
23 treat high volumes of uninsured and Medi-Cal patients when
24 Medi-Cal enrollees are defaulted into Medi-Cal managed care
25 plans.

26 (2) As the department adds additional factors, such as managed
27 care plan costs, to the Medi-Cal managed care plan default
28 assignment algorithm, it shall consult with the Auto Assignment
29 Performance Incentive Program stakeholder workgroup to develop
30 cost factor disregards related to intergovernmental transfers and
31 required wraparound payments that support safety net providers.

32 (n) (1) *The department shall develop and pay capitation rates*
33 *to entities contracted pursuant to Chapter 8.75 (commencing with*
34 *Section 14591), using actuarial methods and in a manner consistent*
35 *with this section, except as provided in this subdivision.*

36 (2) *The department may develop capitation rates using a*
37 *standardized rate methodology across managed care plan models*
38 *for comparable populations. The specific rate methodology applied*
39 *to PACE organizations shall address features of PACE that*
40 *distinguishes it from other managed care plan models.*

1 (3) *The department may develop statewide rates and apply*
2 *geographic adjustments, using available data sources deemed*
3 *appropriate by the department. Consistent with actuarial methods,*
4 *the primary source of data used to develop rates for each PACE*
5 *organization shall be its Medi-Cal cost and utilization data or*
6 *other data sources as deemed necessary by the department.*

7 (4) *Rates developed pursuant to this subdivision shall reflect*
8 *the level of care associated with the specific populations served*
9 *under the contract.*

10 (5) *The rate methodology developed pursuant to this subdivision*
11 *shall contain a mechanism to account for the costs of high-cost*
12 *drugs and treatments.*

13 (6) *Rates developed pursuant to this subdivision shall be*
14 *actuarially certified prior to implementation.*

15 (7) *The department shall consult with those entities contracted*
16 *pursuant to Chapter 8.75 (commencing with Section 14591) in*
17 *developing a rate methodology according to this subdivision.*

18 (8) *Consistent with the requirements of federal law, the*
19 *department shall calculate an upper payment limit for payments*
20 *to PACE organizations. In calculating the upper payment limit,*
21 *the department shall correct the applicable data as necessary and*
22 *shall consider the risk of nursing home placement for the*
23 *comparable population when estimating the level of care and risk*
24 *of PACE participants.*

25 (9) *During the first three rate years in which the methodology*
26 *developed pursuant to this subdivision is used by the department*
27 *to set rates for entities contracted pursuant to Chapter 8.75*
28 *(commencing with Section 14591), the department shall pay the*
29 *entity at a rate within the certified actuarially sound rate range*
30 *developed with respect to that entity, to the extent consistent with*
31 *federal requirements and subject to paragraph (11), as necessary*
32 *to mitigate the impact to the entity during the transition to the*
33 *methodology developed pursuant to this subdivision.*

34 (10) *During the first two years in which a new PACE*
35 *organization or existing PACE organization enters a previously*
36 *unserved area, the department shall pay at a rate within the*
37 *certified actuarially sound rate range developed with respect to*
38 *that entity, to the extent consistent with federal requirements and*
39 *subject to paragraph (11).*

1 (11) *This subdivision shall be implemented only to the extent*
2 *that any necessary federal approvals are obtained and federal*
3 *financial participation is available.*

4 (12) *This subdivision shall apply for rates implemented no*
5 *earlier than January 1, 2017.*

6 ~~(n)~~

7 (o) This section shall be inoperative if the Coordinated Care
8 Initiative becomes inoperative pursuant to Section 34 of ~~the act~~
9 ~~that added this subdivision. Chapter 37 of the Statutes of 2013.~~

10 SEC. 32. *Section 14301.1 of the Welfare and Institutions Code,*
11 *as added by Section 29 of Chapter 37 of the Statutes of 2013, is*
12 *amended to read:*

13 14301.1. (a) For rates established on or after August 1, 2007,
14 the department shall pay capitation rates to health plans
15 participating in the Medi-Cal managed care program using actuarial
16 methods and may establish health-plan- and county-specific rates.
17 The department shall utilize a county- and model-specific rate
18 methodology to develop Medi-Cal managed care capitation rates
19 for contracts entered into between the department and any entity
20 pursuant to Article 2.7 (commencing with Section 14087.3), Article
21 2.8 (commencing with Section 14087.5), and Article 2.91
22 (commencing with Section 14089) of Chapter 7 that includes, but
23 is not limited to, all of the following:

24 (1) Health-plan-specific encounter and claims data.

25 (2) Supplemental utilization and cost data submitted by the
26 health plans.

27 (3) Fee-for-service data for the underlying county of operation
28 or other appropriate counties as deemed necessary by the
29 department.

30 (4) Department of Managed Health Care financial statement
31 data specific to Medi-Cal operations.

32 (5) Other demographic factors, such as age, gender, or
33 diagnostic-based risk adjustments, as the department deems
34 appropriate.

35 (b) To the extent that the department is unable to obtain
36 sufficient actual plan data, it may substitute plan model, similar
37 plan, or county-specific fee-for-service data.

38 (c) The department shall develop rates that include
39 administrative costs, and may apply different administrative costs
40 with respect to separate aid code groups.

1 (d) The department shall develop rates that shall include, but
2 are not limited to, assumptions for underwriting, return on
3 investment, risk, contingencies, changes in policy, and a detailed
4 review of health plan financial statements to validate and reconcile
5 costs for use in developing rates.

6 (e) The department may develop rates that pay plans based on
7 performance incentives, including quality indicators, access to
8 care, and data submission.

9 (f) The department may develop and adopt condition-specific
10 payment rates for health conditions, including, but not limited to,
11 childbirth delivery.

12 (g) (1) Prior to finalizing Medi-Cal managed care capitation
13 rates, the department shall provide health plans with information
14 on how the rates were developed, including rate sheets for that
15 specific health plan, and provide the plans with the opportunity to
16 provide additional supplemental information.

17 (2) For contracts entered into between the department and any
18 entity pursuant to Article 2.8 (commencing with Section 14087.5)
19 of Chapter 7, the department, by June 30 of each year, or, if the
20 budget has not passed by that date, no later than five working days
21 after the budget is signed, shall provide preliminary rates for the
22 upcoming fiscal year.

23 (h) For the purposes of developing capitation rates through
24 implementation of this ratesetting methodology, Medi-Cal managed
25 care health plans shall provide the department with financial and
26 utilization data in a form and substance as deemed necessary by
27 the department to establish rates. This data shall be considered
28 proprietary and shall be exempt from disclosure as official
29 information pursuant to subdivision (k) of Section 6254 of the
30 Government Code as contained in the California Public Records
31 Act (Division 7 (commencing with Section 6250) of Title 1 of the
32 Government Code).

33 (i) The department shall report, upon request, to the fiscal and
34 policy committees of the respective houses of the Legislature
35 regarding implementation of this section.

36 (j) Prior to October 1, 2011, the risk-adjusted countywide
37 capitation rate shall comprise no more than 20 percent of the total
38 capitation rate paid to each Medi-Cal managed care plan.

39 (k) (1) It is the intent of the Legislature to preserve the policy
40 goal to support and strengthen traditional safety net providers who

1 treat high volumes of uninsured and Medi-Cal patients when
2 Medi-Cal enrollees are defaulted into Medi-Cal managed care
3 plans.

4 (2) As the department adds additional factors, such as managed
5 care plan costs, to the Medi-Cal managed care plan default
6 assignment algorithm, it shall consult with the Auto Assignment
7 Performance Incentive Program stakeholder workgroup to develop
8 cost factor disregards related to intergovernmental transfers and
9 required wraparound payments that support safety net providers.

10 *(1) The department shall develop and pay capitation rates*
11 *to entities contracted pursuant to Chapter 8.75 (commencing with*
12 *Section 14591), using actuarial methods and in a manner consistent*
13 *with this section, except as provided in this subdivision.*

14 *(2) The department may develop capitation rates using a*
15 *standardized rate methodology across managed care plan models*
16 *for comparable populations. The specific rate methodology applied*
17 *to PACE organizations shall address features of PACE that*
18 *distinguish it from other managed care plan models.*

19 *(3) The department may develop statewide rates and apply*
20 *geographic adjustments, using available data sources deemed*
21 *appropriate by the department. Consistent with actuarial methods,*
22 *the primary source of data used to develop rates for each PACE*
23 *organization shall be its Medi-Cal cost and utilization data or*
24 *other data sources as deemed necessary by the department.*

25 *(4) Rates developed pursuant to this subdivision shall reflect*
26 *the level of care associated with the specific populations served*
27 *under the contract.*

28 *(5) The rate methodology developed pursuant to this subdivision*
29 *shall contain a mechanism to account for the costs of high-cost*
30 *drugs and treatments.*

31 *(6) Rates developed pursuant to this subdivision shall be*
32 *actuarially certified prior to implementation.*

33 *(7) The department shall consult with those entities contracted*
34 *pursuant to Chapter 8.75 (commencing with Section 14591) in*
35 *developing a rate methodology according to this subdivision.*

36 *(8) Consistent with the requirements of federal law, the*
37 *department shall calculate an upper payment limit for payments*
38 *to PACE organizations. In calculating the upper payment limit,*
39 *the department shall correct the applicable data as necessary and*
40 *shall consider the risk of nursing home placement for the*

1 comparable population when estimating the level of care and risk
2 of PACE participants.

3 (9) During the first three rate years in which the methodology
4 developed pursuant to this subdivision is used by the department
5 to set rates for entities contracted pursuant to Chapter 8.75
6 (commencing with Section 14591), the department shall pay the
7 entity at a rate within the certified actuarially sound rate range
8 developed with respect to that entity, to the extent consistent with
9 federal requirements and subject to paragraph (11), as necessary
10 to mitigate the impact to the entity during the transition to the
11 methodology developed pursuant to this subdivision.

12 (10) During the first two years in which a new PACE
13 organization or existing PACE organization enters a previously
14 unserved area, the department shall pay at a rate within the
15 certified actuarially sound rate range developed with respect to
16 that entity, to the extent consistent with federal requirements and
17 subject to paragraph (11).

18 (11) This subdivision shall be implemented only to the extent
19 any necessary federal approvals are obtained and federal financial
20 participation is available.

21 (12) This subdivision shall apply for rates implemented no
22 earlier than January 1, 2017.

23 (t)

24 (m) This section shall be operative only if Section 28 of the act
